

**WELCOME TO FHS,
CLASS OF 2026!**

A photograph of a dirt path winding through a dense forest of tall, thin trees with green foliage. The path is slightly damp with some puddles. The quote is centered over the image in large, bold, white capital letters.

**THERE IS NOT
ONE PATH.
THERE IS NOT
EVEN THE
RIGHT PATH.
THERE IS ONLY
YOUR PATH.**

Financial knowledge and investment advice can benefit everyone. But this advice is not always easy for the general public to access. That's where investment advisors can help. They use their financial knowledge to tell people about the best investments to make. They base their advice on each client's finances and investment goals.

Investment advisors invest on behalf of their clients. They buy and sell many types of investments, known as securities. These include:

- stocks
- bonds
- mutual funds
- options
- term deposits

Level Down Policy

Level changes will be considered at the first 6 week progress report, at the end of the first nine week grading period, and at the end of the first semester.

When there is no appropriate level to move down to, students in MAP/AP classes must stay until the end of the semester.

To be considered for a level change, the student must have made a sincere effort to succeed by **attending tutorials, completing all work**, and by **conferencing with the teacher**. The parent must also conference with the teacher. If these conditions are met and the student is **earning less than a grade of 80**, the student will be considered for a change. **Space availability** in the receiving course will be a consideration for a level change. The grade earned in the MAP/AP course will be transferred to the regular course. Changes must be made within a 5 day window after the grading period.
